COURSE
MAKEUP ARTIST

YouTube and Instagram are bursting at the seams with makeup gurus, tutorials and handy tips for applying good makeup in no time at all. However, are you looking to take your love of makeup to an even higher level? If so, the makeup artist course from Art of Colors could be something for you. With the help of teachers from the profession, this course trains you to become a professional makeup artist in eight months (MUA).

This is what you learn from us

Are you eager to master the essential makeup skills? Then have a brush and makeup kit at the ready because, at Art of Colors, you are taught all the techniques necessary to apply good makeup. This can range from a natural look to outstanding fashion makeup for a fashion shoot for instance. In addition to the basics, attention is paid to film makeup and makeup specifically for photo shoots.

Teachers from the profession

Our course has an array of teachers ready to give the lessons. All of our teachers have many years of experience in the profession and are involved in, among others, fashion shows, television shows (The Voice of Holland, Koffietijd, Holland's Next Top Model) and top fashion shows.

This is what you learn in the lesson

During the lessons, Natural makeup, Bridal makeup, Bronzed beauty, Boot camp, creative techniques (such as Stained lip, Ombre lip, Halo eyes), Deeper skin tones, Festival look, Asian beauty, Cut crease, Makeup for editorials and Fashion trend makeup are just some of the topics we cover. We also work with high-end brands such as NARS, M.A.C. Cosmetics, INGLOT and NYX in the lessons.

Practical experience and work placement

Your teacher gives you an assignment each lesson and allows you the time during the lesson to work on this independently. You are taught techniques and learn to discover where your strengths lie and what best suits you. Our teachers are always there to help you where necessary; you are with us to learn so you are not expected to be able to do it all immediately. There are various work placements affiliated with our course. We do these in collaboration with the AMFI fashion study, the Akademie Vogue styling study, the Netherlands Film and Television Academy and the Fotovakschool.

Why Art of Colors

Our course stands out from other courses because we offer a complete makeup experience and place individual attention as top priority. Included in our course are several photo shoots. In addition, you can watch tutorials in a digital learning environment in preparation for the lesson and also receive social media training. At the end of the course, you are given a diploma.

Want to know more?

Are you curious about the tuition fee, the materials you need for our course, our open days, the exams, our other courses or anything else? Take a look at our website or call (020) 894 30 70. We hope to see you soon in the lesson.
